Description

Gilmar Sevilla offers you this imposing recreational estate very close to Seville and located in a hillside that allows it to dominate the surrounding territory, presided over by a manor house with a magnificent house with an extensive garden with swimming pool, an area for organising events, an area for breeding and training horses, and several work sheds, all surrounded by dry farming land.

Acquiring this estate will allow you to enjoy the benefits of country life with the grandeur and comfort offered by a luxury property such as this.

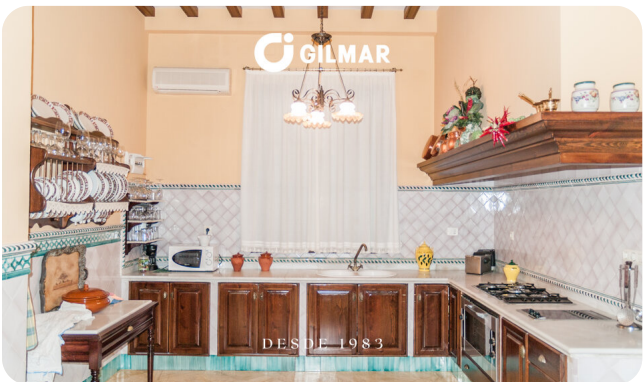

The finca is currently in full use and generates income, both from the organisation of events as well as from the farmland.

The main house and garden is one of the outstanding works of the famous Sevillian architect Aníbal González, who designed it as a summer residence commissioned by a famous Sevillian family in the middle of the 20th century. The house has been completely refurbished and updated with the best qualities, which make this property an exclusive product within the reach of few. The house has 945 m2 distributed in two floors, where we will find in the ground floor a reception, several living rooms, a porch gallery, a dining room, a kitchen, and in the first floor 9 bedrooms and 6 bathrooms. The house is accompanied by a church attached to the house, which forms part of its original configuration. The house has plenty of light

Description

and splendid views of the countryside.
