Description

A spectacular villa with panoramic views of La Reserva, Gibraltar and the Mediterranean. With modern architectural lines, this 4 bedroom villa is distributed over 3 floors adapting to the natural shape of the plot. Situated on one of the highest points in Sotogrande, this villa is the ultimate expression of simplicity with emphasis on its unique location. Every aspect of the design ensures harmony between construction and nature, creating spaces that not only suit the needs of the home, but also optimise interaction with the surroundings. Interiors and exteriors intertwine in a natural way, with light flowing effortlessly through the large windows that replace the walls. that replace walls. The modern architecture of the house

blends naturally into the landscape, seeking to establish an emotional connection with nature, providing a unique living experience immersed in the environment. Every aspect of the design ensures harmony between the building and nature, creating spaces that not only adapt to the needs of the home, but also optimise interaction with the environment. The main entrance is on the ground floor where we connect with an open-plan living area, a generous kitchen and dining room, as well as a large lounge terrace that merges with the infinity pool facing the horizon. This floor also houses the spacious master suite, with its own bathroom, dressing room and direct access to the garden, with an outdoor shower.
