Description

GILMAR presents this haven of comfort and tranquility next to the Giralda

An excellent opportunity right in the heart of the Historic Center. This apartment stands out for offering the perfect balance between modern comfort, tranquility, and an unbeatable location. With 77 m² of floor space, the apartment has been completely renovated, creating a functional, very warm home that's ready to move into.

Its location is truly privileged: as soon as you step out of the building, you find yourself directly facing the Giralda. As an interior unit, it offers the greatest advantage for living in the heart of the tourist

district: exceptional insulation from street noise. Furthermore, thanks to a thoughtful layout, the apartment is surprisingly bright, bathed in clean, pleasant natural light throughout the day.

The property makes optimal use of its space and features a separate living room and kitchen, two spacious bedrooms, and a full bathroom.

This home is the ideal choice both for those seeking the comfort of a fully updated apartment with the added benefit of escaping daily noise, and for investors looking to secure an impeccable property in Seville's most sought-after, iconic, and desirable neighborhood.
