Description

Project to build a villa in the heart of the Costa del Sol, just 8 minutes from the beach and 15 minutes from Marbella and Sotogrande, a dream location with a wealth of landscapes where numerous beaches are distributed between the mountains and the sea from Castillo de la Duquesa, Manilva, Estepona, to Puerto Banús and Benahavis. Very close to the exclusive Valle Romano Golf & Resort and the Sotogrande Polo Clubs. The project's special features have maximized the plot's unbeatable conditions through an inverted house with a spectacularly designed pool.

The house is divided into three floors, accessible by foot and vehicle from an upper level of the plot, leading to an entrance courtyard where a fabulous

wooden walkway leads to the interior of the house. Access by foot and vehicle from an upper level of the plot leads to an entrance courtyard where a fabulous wooden walkway leads to the interior of the house. Once inside, the master bedroom offers a view of the magnitude of the rear of the house and its evocative views of the mountains. With unsurpassed natural light and the highest terrace in the house, we are in full contact with the nature that surrounds this enclave. The house is functionally connected vertically by an exclusively designed elevator and a staircase that recreates a completely unique vertical space. Continuing one floor below, we reach a central double-height area, the heart of the house, from where everything can be understood and visualized. Once here, we fully
