Description

Urban plot with a magnificent project for the construction of a villa in one of the most exclusive locations on the Costa del Sol, where the Mediterranean Sea and the African coast form part of its visual extension. Just minutes from the ports of Sotogrande, Estepona, and La Duquesa, and close to several prestigious golf courses such as the prestigious Cortesin Golf Course and the Valle Romano Golf Club. The project's special features have taken full advantage of the plot's unbeatable conditions and its sea views.

In this project, the house is distributed over three floors, and both vehicle and pedestrian access are from a lower level to an entrance courtyard where the main and garage entrances converge.

Functionally, the house is connected vertically internally by an exclusively designed elevator and a staircase that recreates a completely unique vertical space. From the lower floor, we are greeted by a waterfall and the light that vertically illuminates this space directs us upwards.

Urban plot in Casares of 911 m² with a total of 3 approved floors and a front of 25 m².
