Description

Two industrial units in the Jerez Business Park
Gilmar offers you these two industrial units located in what is probably the best business park in Jerez. The park is modern and has excellent transport links to the rest of the province of Cadiz and Seville. It is practically integrated into the urban center of Jerez. Service sector companies predominate in this park. One-third of its surface area is dedicated to commercial activities, with 17% of the city's industrial activities located in the park. It also has spaces for business centers, offices, and large

green areas. The warehouses are adjacent and connected to each other. They are distributed over two floors, with customer service areas, office areas, storage areas, and customer service areas. The warehouses have surface areas of 705 m² and 555 m², totaling 1,260 m² ready for occupancy. In addition, the street where it is located is very safe, as it is closed off by its two access roads. It is undoubtedly an excellent option for setting up your business.
