Description

Gilmar offers you this detached villa located in the famous coastal town of Zahora, between Los Caños de Meca and El Palmar. Zahora is a small rural town made up of lanes and paths surrounded by nature. It has almost untouched beaches, still unknown to most tourists, making it an ideal place to avoid the more popular beaches. The property is located on a 1,000 square meter plot, which includes a covered garage with a door measuring approximately 40 square meters, a chicken coop, a vegetable garden, a woodshed, and a swimming pool. The garden has automatic irrigation and registered well water. The house has a beautiful gabled roof and is built on two floors plus a large attic. The layout of the house is as follows: Ground floor: upon entering, the first thing that catches the eye is the height of the

ceilings, with beautiful exposed wooden beams, and the spaciousness of this floor. It consists of a living-dining room, clearly differentiated as it is on two levels and discreetly separated by a wooden bookcase. The living room has a fireplace and a hot/cold split air conditioning system. There is also a separate kitchen with access to the garden and swimming pool, two bedrooms with built-in wardrobes, and a bathroom. Upper floor: consists of a spacious bedroom with en-suite bathroom adjoining a large room with multiple uses. From this room, a short flight of stairs leads to a large attic space that can also be used for a variety of purposes. The property is registered, which adds significant value.
