Description

In the heart of the Finca Cortesin in Casares, one of the most prestigious residential enclaves on the Costa del Sol, this villa represents a contemporary vision of Mediterranean luxury, where architecture, landscape and privacy are combined with natural elegance. Finca Cortesin is internationally recognised as one of the most exclusive residential destinations in Southern Europe. Its iconic five-star resort, world-class hotel and championship golf course have positioned this enclave among the most coveted places for international buyers looking for tranquility, security and quality of life. All this takes place in a carefully designed design, surrounded by wide landscaped avenues, low building density and a refined atmosphere. Located between Marbella and Sotogrande, and just a few

minutes from the beaches of Casares, the area offers a unique balance between proximity to some of the most renowned places on the Costa del Sol and a private and tranquil environment where nature and landscape are still the real protagonists.

This fantastic villa is designed as an architecture that follows the natural slope of the land, integrating perfectly into the hillside through a sequence of stepped volumes. The house takes advantage of the land to create different levels that gradually open up to the surrounding landscape. This organization allows each floor to establish its own relationship with the environment, offering varied perspectives and spatial experiences. Terraces, outdoor platforms and landscaped areas

Description

unfold naturally throughout the structure, creating a dynamic composition where each level reveals new points of view across the landscape. The pool is situated as a panoramic platform with visual views of the landscape extending the house into the surrounding area.

In short, this villa presents a contemporary architecture that works in harmony with the terrain, transforming the natural topography into a defining

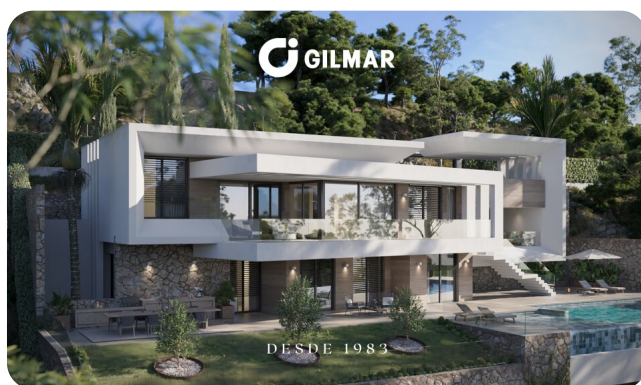

element of the design.
