Description

In one of the most prestigious residential areas of Madrid, we present this magnificent home, completely renovated with exceptional quality finishes and a carefully designed contemporary style.

The property stands out for its extraordinary brightness, being a fully exterior home, and for its comfortable and functional layout, designed to make the most of every space.

The distribution of spaces is excellent: an entrance hall, a spacious independent living room with several windows, an elegant fully equipped kitchen with a covered laundry/drying area, three generously sized bedrooms with two bathrooms,

the main one being en-suite. All rooms are fitted with large closets complete with interior LED lighting.

The comprehensive renovation has been carried out with a distinctly luxurious and exclusive character, combining top-quality materials, modern finishes, and sophisticated aesthetics, offering a turnkey home that requires no additional work.

Among its features are central heating with an individual meter, air conditioning in all rooms, an elevator, and a video intercom system. The building also includes a communal garden and concierge service.

Description

The property is complemented by a double parking space with room for two large vehicles, as well as a storage room.

An exceptional property for those seeking quality,

spaciousness, natural brightness, and a high-level renovation in Arturo Soria, located in a well-established residential environment with excellent transport connections.
