Description

Located on Avenida del Presidente Carmona, in one of Madrid's most established and sought-after residential areas, this magnificent 207 sqm apartment is set within an elegant period building and has been completely renovated using the highest quality materials.

The property stands out for its generous proportions, carefully considered layout and the perfect balance between the classic character of the building and the comfort of a contemporary renovation. The spacious living and dining room enjoys direct access to a pleasant terrace, creating a comfortable and welcoming space for both everyday living and entertaining.

The contemporary kitchen is partially connected to the living room through elegant sliding doors, allowing it to be either fully integrated into the main living area or completely enclosed whenever greater privacy is desired. This versatile layout makes the space particularly practical for modern living.

The private area comprises four bedrooms and three bathrooms, together with a separate study that could also be used as an additional bedroom or staff room, depending on the needs of the new owners.

The renovation incorporates a comprehensive home automation system, allowing the blinds,

Description

lighting, air conditioning and whole-home music system to be conveniently controlled throughout the property.

The apartment also includes a private parking space within the building, an especially valuable feature in this sought-after location.

A distinguished period property, completely renovated to an exceptional standard, situated on a quiet residential street while being surrounded by all the amenities required for everyday life, including shops, restaurants, schools and excellent transport connections.
