Description

Detached villa with garden and private swimming pool in Heliópolis

In the exclusive neighbourhood of Heliópolis, one of Seville's most characterful residential areas, stands this 262 m² detached villa, built in 1992 and spread over four floors.

The property immediately stands out for the spaciousness of its rooms and a layout designed to offer comfort and privacy. It features six bedrooms and five bathrooms, allowing its various spaces to be adapted both to family life and to the needs of those seeking separate areas within the home itself.

The exterior offers an attraction that is particularly hard to find in the city: a private garden with a swimming pool, allowing you to enjoy outdoor spaces in complete privacy.

Heliópolis offers added value that is hard to replicate. Its tree-lined streets and detached houses form one of Seville's most recognisable residential landscapes. A well-established neighbourhood with a distinct identity and all the necessary amenities nearby, just a few minutes' walk from the city's main attractions.

A unique property due to its size, its outdoor spaces and, above all, its location in one of Seville's most special neighbourhoods.
